Intelligentsia Cup Celebrates Its 10th Anniversary!

The Intelligentsia Cup was founded in 2012 with a single venue and since then has grown to become the largest competitive road cycling series in the United States. In 2021 we hosted approximately 560 daily riders from 45 states and 10 foreign countries. This year we welcome back all 9 of our great venues from last year, plus a new stage in Northbrook, IL. Our Lake Bluff stage will be livestreamed as part of the new American Criterium Cup series. To all our riders this year, we hope you enjoy the 2022 Intelli Cup and thank you for racing with us. Be sure to check our website for full information, daily updates, and online results. We will also be issuing daily communiques during the series.

Appendix 3 Doping Control

INFORMATION REGARDING DRUG TESTING

SELECTION OF RIDERS FOR DOPING CONTROL

By registering to compete at this event you have consented to be subject to drug testing and adhere to the penalties associated with an anti-doping rules violation. All registered competitors are subject to testing and, if chosen for drug testing, are required to comply with the applicable rules. Noncompliance or refusing to be tested will result in the same penalties as a doping violation.

When the U.S. Anti-Doping Agency (“USADA”) is conducting testing at your race the list of cyclists selected for doping control will be posted at the finish line (or location where the cyclists leave the course or track) and at the Doping Control Station.

All riders, including any athlete who has abandoned the competition, are responsible for ensuring personally whether they are required to appear for doping control. All posted riders are required to report to the Doping Control Station unless their release from testing documented by a USADA Official in the field. If, after reporting to the Doping Control Station a posted rider is not required to provide a sample for purposes of doping control, their dismissal will be documented by a USADA Official.

NOTIFICATION OF ATHLETES

It is your responsibility to check the doping control posting even when chaperones are provided at events where USADA is testing. While USADA plans to have chaperones available to locate and escort all cyclists selected for testing, this is not the norm at UCI- sanctioned events. Given this, the lack of a Chaperone or Escort does not excuse a rider from testing. Should a rider fail to report to doping control within 60 minutes of notification, that rider will be subject to sanctions.

APPLICABLE RULES

USADA will conduct testing in accordance with its Protocol. A copy of and additional information concerning the USADA Protocols are available online at <http://www.usantidoping.org>. You should also review the applicable anti-doping rules of the Union Cycliste International (UCI), the International Federation for the sport, at <http://www.uci.ch/>.

“Refusing, or failing without compelling justification, to submit to sample collection after notification as authorized in

applicable anti-doping rules or otherwise evading sample collection” is an anti-doping rule violation.

UNITED STATES ANTI-DOPING AGENCY

The United States Anti-Doping Agency is the independent anti-doping agency for the Olympic Movement in the United States. USADA is dedicated to eliminating the practice of doping in sport, preserving the well-being of sport, and ensuring the health of athletes through drug testing, research initiatives and educational programs.

PROHIBITED CLASSES FOR EVENT TESTING

USADA will test for the classes of substances and methods prohibited by the World Anti-Doping Code. For in-competition testing urine samples are tested for the following categories of substances: anabolic agents, hormones, beta-2 agonists, anti-estrogenic substances, diuretics, stimulants, narcotics, cannabinoids (i.e., marijuana), glucocorticosteroids, alcohol and beta-blockers; additionally, the following methods such as blood doping, gene doping and pharmacological, chemical, and physical manipulation are also prohibited.

For more detailed information or a non-exclusive list of substances within each category listed above, visit the USADA web site at http://www.usantidoping.org/prohibited_sub/wallet_card.asp for the USADA Wallet Card.

Further information about the drug testing, the protection of your rights and the status of specific medications on the 2009 WADA Prohibited List is available from the USADA Drug Reference On-Line at <http://www.usantidoping.org/dro> When in doubt athletes should check with these resources.

Please remember that even over the counter or prescription medications can contain a banned substance that could cause a positive test result and a doping offense. Dietary/nutritional supplements including vitamins, minerals and amino acids are completely at the athlete’s risk, even if the supplements are labeled ‘approved’ or ‘verified.’ If you take dietary/nutritional supplements you may test positive for a prohibited substance which is not disclosed on the product label. This would result in a doping violation and sanction. Always check with your team doctor or the USADA Drug Reference Line before taking any medication.
