

If you had an epic day - congrats! If the day was less than stellar we have great news... you have 7 more days of racing to make it up!

**Just one important note:**

- We've been collecting some items that feel like they are important (like a glucose monitor - true story) and want all riders to be aware we do have a lost and found. So if you find yourself missing something, please check with staff at the Registration tent before hitting the panic button.

Running out of creative ways to transition from "you should be in bed" to "here are some cool notes for tomorrow" so this will have to do:

Tomorrow we move to Mundelein for day 4 of Intelligentsia Cup!

- Mundelein is a technical racer's paradise! Look for the new lane configuration at the final turn 😊.
- Parking is limited this year due to construction in the area. Parking available at Metra Train Station, Tighthead Brewing, Morrison's Laundry (we've attached a map for reference).
- One of the perks of being sponsored by a brewery? TWO BEER GARDENS! Thanks to Tighthead Brewing.

Alright, it's late so get some rest and good luck tomorrow!
